DE genes: 6−PP vs Control within Drought (During Drought)
Harvest
Water
Ryegrass
Treatment
protein CCA1
protein GIGANTEA
ankyrin repeat protein SKIP35−like
cryptochrome−1−like
uncharacterized LOC127296904
MADS−box transcription factor 26
uncharacterized LOC127302986
LOC139829671
formin−like protein 13
cold−regulated protein 27−like
protein LURP−one−related 8−like
uncharacterized LOC127342566
probable metal−nicotianamine transporter YSL6
receptor−like protein kinase HERK 1
cyclic dof factor 2−like
cyclic dof factor 2−like.1
CBL−interacting protein kinase 10−like
uncharacterized LOC127313552
transcription factor HY5−like
protein HIGH CHLOROPHYLL FLUORESCENCE PHENOTYPE 173, chloroplastic
protein REVEILLE 7−like
protein REVEILLE 6−like
bidirectional sugar transporter SWEET4−like
uncharacterized LOC127312748
B3 domain−containing protein Os11g0156000−like
receptor−like protein kinase FERONIA
LOC139831145
histone H4−like
MOB kinase activator−like 1A
uncharacterized LOC127292631
