Top 30 DE genes: 6−PP vs Control within Drought (Post Drought)
Harvest
Water
Ryegrass
Treatment
DEK domain−containing chromatin−associated protein 4−like
LOC139834355
nodulin−related protein 2−like
28S ribosomal RNA
uncharacterized LOC127293291
ubiquitin−conjugating enzyme E2 7
RNA−binding motif protein 25
uncharacterized LOC127317505
protein NETWORKED 1B−like
beta−fructofuranosidase, insoluble isoenzyme 1−like
protein decapping 5−like
ubiquitin domain−containing protein DSK2b−like
CBL−interacting protein kinase 10−like
thiamine thiazole synthase 2, chloroplastic−like
adagio−like protein 3
uncharacterized LOC127331740
S−type anion channel SLAH3−like
extensin−1−like
trihelix transcription factor GTL1−like
filament−like plant protein 3
uncharacterized LOC127316763
uncharacterized LOC127301537
calcium−binding protein KIC−like
uncharacterized LOC127311573
small nucleolar RNA Z101
uridylate kinase PUMPKIN, chloroplastic
protein REVEILLE 7−like
glucan endo−1,3−beta−glucosidase 8−like
ultraviolet−B receptor UVR8
transcription factor BIM2−like
