Top 50 variable genes (averaged by treatment)
Ryegrass
Water
Harvest
Treatment
cortical cell−delineating protein−like.2
cold−shock protein CS120−like
uncharacterized LOC127304639
late embryogenesis abundant protein 18−like
dehydrin DHN1−like
root−specific lectin−like
aldose reductase
ABA−inducible protein PHV A1−like
dehydrin DHN3−like.3
dehydrin DHN3−like
uncharacterized LOC127341970
eukaryotic peptide chain release factor subunit 1−2−like
uncharacterized LOC127304875
NADP−dependent malic enzyme−like
uncharacterized LOC127293104
late embryogenesis abundant protein Lea14−A−like
dehydrin DHN3−like.1
uncharacterized LOC127305544
dehydrin Rab15−like
uncharacterized LOC127341328
LOC139837702
late embryogenesis abundant protein 18−like.2
membrane protein PM19L−like.1
probable inorganic phosphate transporter 1−4
late embryogenesis abundant protein 18−like.1
uncharacterized LOC127295977
late embryogenesis abundant protein At3g53040−like
membrane protein PM19L−like
uncharacterized LOC127338813
2,3−bisphosphoglycerate−independent phosphoglycerate mutase−like
stem−specific protein TSJT1
heavy metal−associated isoprenylated plant protein 20−like
SEED MATURATION PROTEIN 1
dehydrin DHN3−like.2
pyruvate decarboxylase 1−like
glutamine synthetase cytosolic isozyme 1−3
galactinol synthase 2−like
glycine−rich cell wall structural protein−like
subtilisin−like protease SBT3.9
uncharacterized LOC127348137
cortical cell−delineating protein−like
polygalacturonase non−catalytic subunit AroGP2−like
lipid transfer protein EARLI 1−like
14 kDa proline−rich protein DC2.15−like
BURP domain−containing protein 11−like
14 kDa proline−rich protein DC2.15−like.1
glucan endo−1,3−beta−glucosidase GII−like
peroxidase 21−like
putative lipid−transfer protein DIR1
cortical cell−delineating protein−like.1
